

# Staying safe in your building during Covid 19

Please help reduce the risk of catching and passing on Covid 19 in the common areas of your building

Maintain a 2m distance from anyone not in your household or support bubble

We encourage you to wear a face covering when in shared areas of the building including corridors

Regularly wash or sanitise your hands, especially after touching shared surfaces like handrails

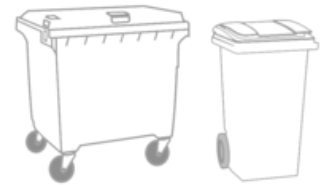

Only persons from the same household or support bubble should travel in lifts together

Mon Tue Wed Thu Fri Sat Sun

Be aware that common areas of the building are not subject to daily cleaning or disinfection

Waste disposal areas are in frequent use by other households – please wash or sanitise your hands after use

If your household waste contains items used by a person who has tested positive, it should be double bagged and stored within your home for 72 hours before disposing of in communal waste facilities

Thank you for helping to stop the spread of the virus
