Regeneration Update

In July we wrote to you to let you know that Plymouth City Council had given us planning permission to regenerate Barne Barton. This means they have backed our vision to create a truly vibrant and sustainable community shaped by Barne Barton residents.

We have now hired Shield Demolition as the demolition contractors for the first phase of regeneration. This means you will soon see hoarding going up around the homes in phase one to keep the homes secure and neighbouring residents safe.

Shield will then take away any materials that can be recycled or reused before knocking down the buildings in the New Year.

We'll be in touch soon with details about how you can meet Shield and ask them any questions that you may have about the demolition process.
