

# Sherwood Close regeneration update

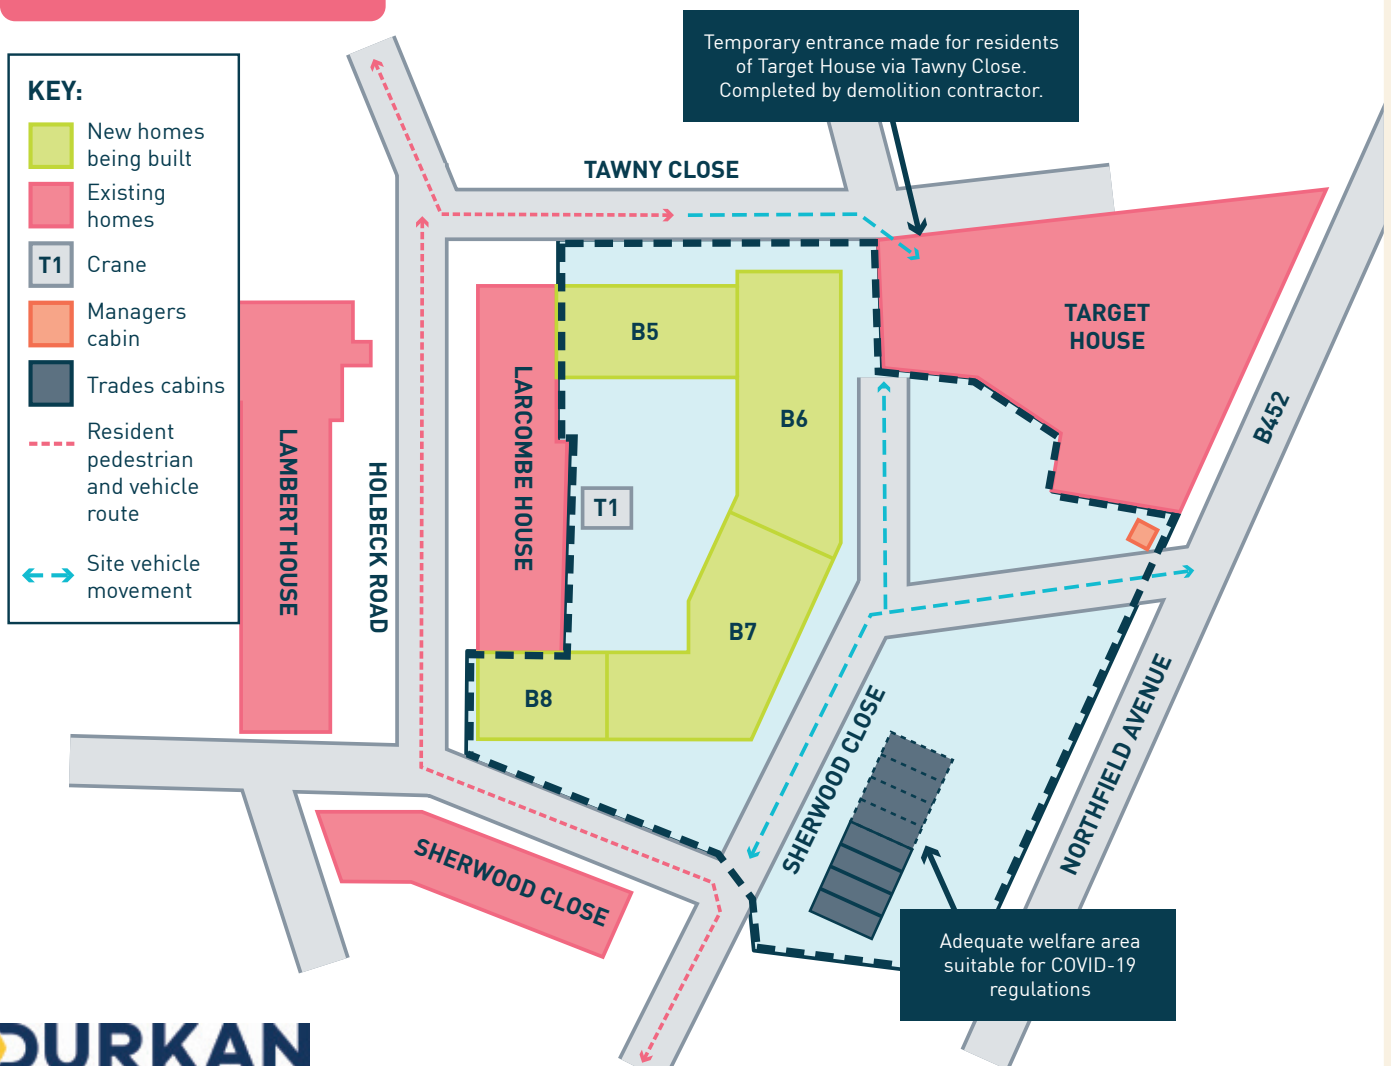

CLARION  
HOUSING

Construction company Durkan has been appointed to build the next set of homes in phase two of Sherwood Close regeneration. This includes:

- 4 new blocks linking to homes in phase one
- 106 new homes
- A new electrical sub-station for phases two and three

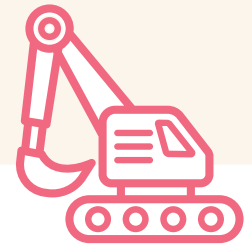

The diagram below shows where the construction work will take place. Our priority is to minimise disruption during this time and to keep you fully informed. This fact sheet aims to answer any questions you may have.

## Site layout

**Q: When will full construction works begin?**

A: Durkan started work on site in January. We will have a small team doing enabling works before groundworks begin in mid-March.

**Q: What will your working hours be?**

A: Our construction team follow Ealing Council's working hours conditions

- **Monday – Friday: 8am– 6pm**
- **Saturday: 9am – 1pm**
- **Sunday: No work**

**Q: Will we be affected by your workers on site?**

A: Our site office will remain in the same place throughout the construction of phase two. Workers will be behind the hoarding away from public areas to avoid disruption to you.

**Q: Will we be affected by construction traffic?**

A: We will introduce traffic marshals and banksman to direct the traffic safely and all construction traffic will be arriving via a strict booking system.

**Q: How are Durkan workers keeping safe during Covid Restrictions?**

A: We are working closely with our Health and Safety department, following government guidance and social distance measures. This is working very well at all our construction sites that have continued running through lockdown.

**Q: Will you be providing any training and employment opportunities for local people?**

A: Yes we will be working with Clarion Futures to offer apprenticeships and jobs including entry level positions specifically targeting young people. We will begin recruiting early 2021 as activities start taking place on site.

We will also be engaging with local schools and colleges by running construction careers events and employability skills sessions to give support on CV writing and interview skills.

Clarion Futures will be managing all the positions. For more information email: [futuresjobs@myclarionhousing.com](mailto:futuresjobs@myclarionhousing.com)

**Q: How else will you be contributing to our local community?**

A: We will be sponsoring community activities at Sherwood Close including donating funds to improve your new community centre.
